

NEO Q S

The essence of Neo Q in its most compact and versatile version

Neo Q S is the essence of NEO Q but in a **more compact and versatile design**.

Its interactive screen facilitates operations and enhances the user experience, while its compact and customizable design adapts to different locations.

Brewing units

To customize beverages and volumes according to your needs, including the option of offering both espresso and filter coffee in a single machine, choose any of the three brewing units.

21.5" tactile screen

Simplifies machine programming and improves the user experience.

Payment systems

The NEO Q range can be adapted to the latest payment methods with various accessories.

Illuminated dispensing area

The illuminated dispensing area enhances the user experience and contributes to the perfect presentation of the beverages.

ECO mode

The machine offers the option to programme automatic boiler shutdown or enter standby mode outside business hours, enabling greater energy savings and customization based on specific usage patterns.

Sensor I-Detect

Identifies the consumer's cup, thus saving on disposable cups.

Customized design

The versatility of its design allows you to adapt to your customer, as well as to refurbish the machine by just replacing the front part.

Optional

Cool filtered water

Offers better quality than tap water, thanks to its filtration system that allows the water to be taste and odour free.

NEQ S ESPRESSO

Capacity
